DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This farmstead consists of a two story, three bay brick cased log house with a veneer applied in all stretcher bricks. A two story, three bay ell of brick construction extends to the rear of the house. Openings are relatively small in relation to wall area and are topped with wide wooden lintels. Interior and exterior woodwork and trim is suggestive of the second half of the 19th century. Also present on the property is a frame bank barn and related domestic and agricultural outbuildings.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This property is an example of a 19th century farm complex. The practice of sheathing log houses with brick was prevalent during the second half of the 19th century. It is possible that the log structure was in existence prior to the application of the brick veneer.
